

ONE CLEAN GREEN Carpet & Upholstery Cleaner

FOR PROFESSIONAL USE ONLY

A "WoolSafe" and biodegradable carpet and upholstery cleaning product. One Clean Green holds three independent validations of quality, fully multi-use and multi fibre safe and contains only natural ingredients including plant based surfactants for excellent cleaning results.

General Usage

Determine level of soiling anticipated. Mix dilution ratios according to cleaning method used. Goes into solution instantly in hot or cold water.

Carpet and Upholstery Pre spray – Mix 180ml in 4L of hot water, apply with a pump-up or electric sprayer.

For use in an inline sprayer – Mix 2L to 3L of water into the reservoir and metre at standard setting of 1:8.

For Portables or as a Carpet and Upholstery Rinse – 60ml to 20L of hot water. Addition of defoamer in soiled water tank may be needed.

Truck Mount Directions

1. Stock Solution: Mix 1L to 20L of hot water.
2. Fresh Water Tanks: Mix 60ml to 20L of hot water.

For use in a Low Moisture System – Mix 60ml to 4L of water.

Rotary Floor Machine – Mix 240ml to 4L of warm or hot water. Rinse carpet with water or DFC 105. Addition of defoamer in soiled water tank is recommended.

Hints and Tips

Light Daily Spotting – Mix 90ml to 4L of hot water and pour into a spray bottle. Spray stained area. Blot dry with towel or absorbent cloth. Repeat until stain no longer transfers onto a cloth or towel.

Heavy Carpet Spotting – Apply undiluted. Allow time to penetrate stain. Tamp with a spotting brush. Rinse with an extraction machine or blot with a water rinse and blot dry.
