

소형 자동 세정기 \$ 2,842.50

Cleaning capacity of 8 mop buckets!
3 times as fast and really clean!

Fully adjustable and foldable telescopic handle

This compact scrubber is designed for daily maintenance cleaning of smaller areas and tight spaces. The PARROT cleans over 1,000 sq.ft. without changing the cleaning solution; and unlike mop & bucket the PARROT always uses clean solution and truly removes dirty solution and dirt from the floor. The PARROT leaves floors clean and dry.

Loaded with features ...

- Scrubbing and pick-up in forward and reverse
- Double-scrubbing for even heavily soiled and greasy floors
- Scrub wand operation for hard to reach areas and low clearances
- Removable tank for easy filling and emptying

The fully adjustable handle folds onto the machine for storage and transportation.

For utmost convenience all functions are operated without bending over or kneeling down!

Easy filling and emptying

Compact for convenient storage and transportation

Counter-rotating brushes and raisable squeegees

Optional: Pad driver and pads
