## What is HOST Dry Carpet Cleaner?

**H**OST SPONGES contain a balanced blend of water, detergents, wetting agents and natural ingredients. As the low moisture SPONGES are brushed through the carpet, the absorbent particles deep clean by dissolving, trapping and removing spots, spills and greasy, oily dirt. Like a sponge in a kitchen, HOST SPONGES holds and controls the cleaning liquids so dissolved dirt doesn't run into the carpet backing. After vacuuming up the SPONGES, carpet is clean, dry and back in service. HOST SPONGES are natural, non-toxic, biodegradable and safe for people and pets.
